E290 CO₂ Cylinder - 1200g

E290 CO₂ Cylinder - 600g

Recharging your Deep Sparkle™

Conveniently maintain the superior sparkle of Borg & Overström dispensers with our CO₂ refills. Easy for consumers to fit, the refill canisters are available in two sizes to suit varying usage levels. They're small enough to easily store and can be disposed of in standard recycling.

For use with all Borg & Overström sparkling water systems to create Deep Sparkle™ carbonated chilled water.

To remove and dispose of a spent cylinder:

Close the regulator by turning the knob anticlockwise by hand. Grip the regulator by the metal shaft in one hand and the cylinder in the other hand. Rotate the regulator anticlockwise. Dispose of the cylinder in accordance with local regulations.

To fit a sparkling refill cylinder: Remove protective cover cap from top of cylinder. Screw on the regulator (right hand thread) by hand without over tightening. Rotate the

regulator clockwise. **BEWARE OF ESCAPING GAS UNDER PRESSURE!**
