

## MIW-WWP1 – Waste Water Pump

The MIW-WWP1 Waste Water Pump has a maximum flow rate of 130 litres per hour at a head of 4m to allow for the efficient removal of waste water from drinking fountains. The pump is supplied with a 3/8 check valve outlet, is highly durable, easy to install and maintain. Weighing just 2.3kg and with its compact dimensions this powerful waste pump can be fitted neatly to a large number of products from our range. Associated optional support products include a wall mounted shroud and reinforced braided waste water pipe - 3/8" bore.
